- All memberships fall due on 1st July each year.
- Club member rates can only be redeemed at club events on club days.

The aim of the club is to provide experienced players with something more than regular games. With that in mind we would only encourage those players who have previously played a few of our regular games to join. Club players need a certain level of independence (cleaning their own equipment, enforcing safety rules, etc) which they will be instructed in prior to play.

As the club grows an area will be set aside for the club to develop for their own use.

With time club members will become more experienced and therefore will not be permitted to go back to our regular game sessions to "beat up first time and inexperienced players" and for this reason club rates will not be redeemable in regular games. However this does not mean that you can't play our regular sessions with your work mates, etc you just won't be able to redeem your club rates in regular games.

Regular club days will be held at our Kuitpo field on the first Sunday of each month.
